

## PROJECT DESIGN PHASE - I SOLUTION ARCHITECTURE

Date	05 October 2022
TeamID	PNT2022TMID31809
Project Name	Project - Containment Zone Alerting Application
Maximum Marks	4 Marks

### SolutionArchitecture:

Solution architecture is a complex process—with many sub-processes—that bridges the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements.
- Provide specifications according to which the solution is defined, managed, and delivered.
